## PROJECTS

**MLOPs Project End-to-End Chicken Disease Classification** — *A deep learning project using MLOps tools, DVC, GitHub Actions, deployment in AWS,*

**Fine-tuning and Deployed LLM model** — *Tuned a Large Language model and Deployed.*

**Created 2 Chatbots for Finance and Cricket** — *1 for Cricket lover give live scores 2nd for Finance related work.*

**MLOps Project End-to-End till Deployment in K8s with GitHub-Actions.** *Complete Deployment end to end fetch data, train model, docker push in hub, deployment in K8S manage via CNCF Rancher*

**Develop an Anime Recommender System and Automates the workflows using GitHub Actions** — *It Predicts cartoon series based on your interest and Increases the user watch time by 30%.*

**Multi-document summarization** — *Created end to end Multi-document summarization and implement automation*

## EXPERIENCE

**Internship**                    June-2023
**Data Science** — DataKnobs
*Build LLM models and build Generative AI models.*

**Open source Contribution** - Zowe-client-SDK, Mindsdb, and SUSE.

**Google Cloud Facilitator**        May/2023-July/2023

[Cloud Professional](#) *Worked on Google Cloud Platform - Earned 30+ GCP badges over 500 students.*

## EDUCATION

**Maharishi Dayanand University,** Rohtak—Bachelor of Technology- Computer Science
AUGUST 2022 - AUGUST 2025

**Rajokari Institute of Technology,** Delhi — *Diploma*
AUGUST 2019 - AUGUST 2022

**Sarvodaya Bal Vidyalaya,** Delhi — *10th*
APRIL 2018- APRIL 2019

## SKILLS

❖ Kubernetes, GO

❖ MLflow, Kubeflow, Deep Learning

❖ Helm, Argo-CD, GitHub-Action

❖ MLOPS, Tensorflow, Deep Learning

❖ Machine Learning, Docker, Prometheus

❖ Huggingface, Transformers, Weights & Bias

❖ AWS Sagemaker, Deployment in GCP Cloud Run

## AWARDS

**Microsoft Student Ambassador** - A group of campus leaders eager to help fellow students, create robust tech communities and develop technical and career skills for the future.

**All Kaggle Certification For Data Science** - 15+ Certification in Data Science + IBM Certification from Coursera. The Postman REST APIs golden badge is only for experts in APIs.

**GSSOC & SSOC Mentee**

**Contributed to Open Source Zowe-client-SDK, Mindsdb, and SUSE**
I contributed to some organizations. And Implement many features and functionality, fix bugs, and improves the user experience by 20%.

**Google Facilitator Completed 2 times :** In this program, I Earned 30+ Google Cloud Badges and learned some new tech stuff: Docker, Kubernetes, YAML, Google Cloud Platform Go, Makefile, Shell, and PLpgSQL.
